

GUARDIAN PLATFORM BRIEF

Guardian Dark Web Monitoring

Approved external exposure monitoring presented through customer-safe findings.

INTENDED AUDIENCE	Business leaders, security teams, brand owners and managed-service customers
PUBLICATION STATUS	Included in Guardian Core - monitored-item allowances are confirmed in the package schedule

Included in Guardian Core

Guardian Dark Web Monitoring is included in Guardian Core for the approved domains, email addresses and keywords defined in the customer package schedule. Expanded scope or specialist investigation may be separately priced.

What customers see

- Approved domain, email and keyword monitoring status
- Customer-safe exposure findings
- Severity, status and practical context
- Accountable follow-up actions where required
- Clear monitored-scope and availability states

Governed boundaries

- Guardian does not claim visibility into every illicit forum, dataset or exposure event.
- Exact collection methods, source identities and crawler infrastructure are not public.
- Only approved customer-safe records are exposed through the platform.
- Monitored items must be authorised and included in the applicable package schedule.
